using System.Collections;
using UnityEngine.SceneManagement;

public class Notitembuy : MonoBehaviour
{
    public void Backoption()
    {
        //メソッドの呼び出し
        StartCoroutine("backPush");
    }

    IEnumerator backPush()
    {
        //飛ぶ時の遅延
        yield return new WaitForSeconds(0.0f);
        //オブジェクトの破壊
        Destroy(gameObject);
        //飛ぶシーン名
        SceneManager.LoadScene("buy");
    }
}
```
